WHY TILMAC?

Tilmac is one of the leading providers of innovative, world class sheds, with staff who bring 40 years of industrial experience. At Tilmac we boast the toughest, strongest and smartest sheds ever made. Our designs are the products of many decades of refinement and the result of our mission to deliver a project that suits your taste and need for strength.

Custom designed

At Tilmac our range of steel buildings can be tailored to suit your requirements. We offer flexible designs and frame types for whatever job or purpose, all guaranteed to give protection through maximum strength. And our range is huge with many options available in each design.

Your Local Dealer

Our head office is based in the rural town of Orange, in Central West NSW, but our ever-expanding distributor network ensures we have someone near you, who is ready and waiting to help meet your shed needs. Tilmac has the skills and experience to deliver just the right shed for you.

Sales & Quoting

Our highly qualified Tilmac team can arrange quotes, approvals and erection including footings and cement slabs. Or we can supply a shed in a kit form. Our design facilitates easy erection to save time and money.

“ Everything is easy with Tilmac. You get the whole package. ”

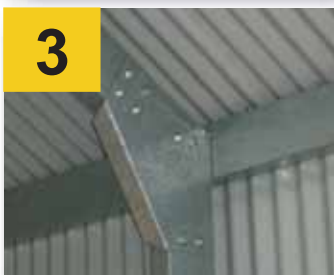

THE ONLY CHOICE

1 Tilmac offer not only galvanised purlin frame sheds but an optional range of heavy duty fabricated frame steel buildings which are stronger, longer lasting and more flexible in design.

2 Tilmac galvanised purlin frames are strong with the option to choose from heavy duty C150 to C300 purlin frame.

3 Fully bolted connections are made from galvanised steel for added strength and protection. The bolts guarantee secure fastenings down in all weather conditions.

4 Tilmac uses only BLUESCOPE steel to build your Tilmac Shed. Tilmac customers can choose from the extensive range of durable and attractive COLORBOND® or ZINCALUME® steel cladding.

5 All window and door openings are fully framed. Tilmac shed designs allow you to add doors and windows almost anywhere around the building.

DOMESTIC SHEDS

GARAGES, WORKSHOP & STORAGE SHEDS

At Tilmac, our superior garage and domestic shed solutions have heavier frames and sheeting than our competitors. So whether you are after a garage, workshop or carport, you can rely on Tilmac to deliver maximum strength and protection - and often at the same or lesser price!

- Customizable span, height, length and bay sizes
- Full Length end wall sheets
- Wide 2.7m roller doors as standard
- Quad gutter and down pipes as standard
- Fully bolted connections
- Wide range of colours

Options

- Roof Pitch - 15° degree roof pitch as standard or optional roof pitches from 5-30° available
- Wall and Roof Sheets - Corrugated or trimdek sheeting in .42mm
- Personalised access doors, roller doors, sliding doors, windows
- Skylight roof sheets
- Insulation and/or roof ventilators

CARPORTS

CARPORTS & LEAN-TO'S

Is your vehicle currently out in the weather, just waiting for a hail storm to come and leave its mark? Or is your home just a little too over-crowded, and in need of a new entertainment area?

A Tilmac Carport is your solution.

Tilmacs range of carports are designed and built for strength and durability to give you the protection you need at a very realistic price. You have a choice of flat or gable roof with an extensive variety of sizes and designs to suit your needs and ensure it blends in beautifully with your home.

Features

- Free standing or attached to your garage
- Flat or Gable roof design
- Single & double vehicle sizes standard
- Customizable span, height, length and bay sizes
- Quad gutter and down pipes as standard??
- Specially formed heavy main frame
- Fully bolted connections
- Wide range of colours

SPECIALTY

ANY SHED, ANY SIZE - AND WE MEAN IT.

Do you require something a little more specialised? At Tilmac we understand how important it is to find the right shed design to suit you. No job is too obscure for our talented team of designers and manufacturers. Just give us a call and you'll soon see for yourself.

Our Speciality range includes everything including but limited to

- Airport hangers
- School shelters
- Sporting complexes

Our team of experienced designers are ready to come together with you the client to produce a custom designed steel building which is truly exceptional. We at Tilmac have the team to complete your dream steel building.

AUSTRALIAN
MADE

BUILT TOUGH

BUILT TOUGH

In an era where most suppliers have gone for the easy option of exclusively purlin-framed buildings, Tilmac offer an optional range of heavy duty fabricated frame steel buildings which are stronger, longer lasting and more flexible in design.

Your Tilmac shed is manufactured using premium quality Australian Steel for durability and strength. Complimenting this, Tilmac sheds come with **25 YEARS WARRANTY** on fabricated frames and **15 YEARS WARRANTY** on purlin sheds, our sheds really are built to last.

TILMAC DESIGN TO THE CODE

Tilmac ensures all guidelines set by the Building Code of Australia are adhered to and approved by a certified engineer during the design and construction of your Tilmac shed.

Our distributors can arrange all necessary Council and Statutory permits and approvals for your new Tilmac building.

HASSLE FREE DELIVERY & CONSTRUCTION

We export world wide. At Tilmac, delivery over a wide area of eastern Australia is **FREE OF CHARGE** and direct to your site. Some areas may incur a minimal delivery charge.

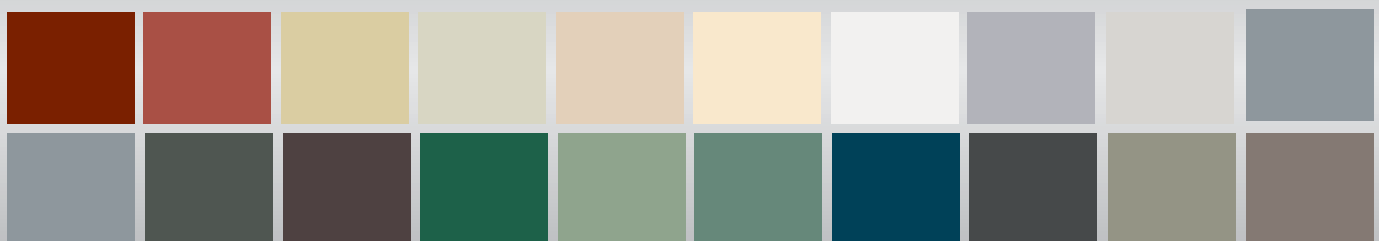

TILMAC - IT'S THE ONLY CHOICE

- ✓ 40 years of industrial experience.
- ✓ Customised sheds to suit your needs.
- ✓ Tough, built to last sheds.
- ✓ 15 Years Warranty on purlin frame sheds & 25 Years Warranty on fabricated sheds.
- ✓ Australian made.
- ✓ Outstanding value for money.
- ✓ Top level service, every time

TILMAC COLOUR RANGE

Tilmac sheds are made from quality Australian Bluescope® steel in ZINCALUME® or COLOURBOND® finishes.
